THE GODDESS OF ETOWAH

An Antique Georgia Relic of the Ante-Indian Days.

The Idol of Millions of Worshippers.

A Curious Case for the Antiquary.

Editors Constitution: This interesting relic of antiquity of the extinct race of "Mound-builders," is now on exhibition at the Young Men's Library Hall, in your city, and every man and woman should visit and see this evidence of semi civilization, which must have been worshipped by millions long anterior to the historic period. It was ploughed up last summer, on the eastern escarpment of the magnificent square, or rather imperfect pentagonal mound, which formed the base of their temple of the sun, as all their temples from the Savannah to the great lakes, and from the Appalachians to the Rocky Mountains and Mexico, have similar platforms, on the east, where are found the same idols—slices of quartz or gneystone, sacrificial vessels of native copper, mica mirrors, etc., proving that they worshipped the sun; and constituted a very extensive and powerful kingdom, which was not only despotic, but nearly as far advanced in the arts as the Mongols. The stone axes and hammers, with implements for cultivating the soil, and for mining; the latter found in their horizontal tunnels, after native copper, on the shores of Lake Superior, clearly prove that they had no means of mining below the water level; and also that they knew nothing of the working of ores of any kind, as iron, gold, silver, and other metals abounded throughout many parts of their province. The occurrence of the mica mirrors, and the beautiful marginella shell, for ornament, in all their cemeteries, still further proves this fact. Gold beads were found at this place only, which is accounted for by the existence of massive native gold in the Elrod mine, and others near this cemetery.

Georgia embraces a magnificent system of fortifications, cemeteries, watch towers, etc.; at Col. Tumlin's on the Etowah river; below Macon on the Ocmulgee; on the Chattahoochee in Campbell county, and at Nacoochee. In the Ohio and Mississippi valleys their fortifications are more stupendous, but their temples and cemeteries are the same as those above mentioned. The Etowah group was surveyed and described by Hawkins, and by Jones, of Savannah, in his Monumental Remains of Georgia, and by myself. The base of the Grand Temple is 88 feet high and 235 feet in diameter. On top near this is a circular mound 38 feet high and had a parapet on top, in 1824, four feet high. Northeast of these are four small mounds, and on the Southwest one, which were used as watch towers. The whole embracing 50 acres, encircled by the Etowah river on three sides, and by a moat on the other, which was about 20 feet deep and the same width. The fortifications at Nacoochee were used by De Soto in his war with the Cherokees in 1540.

These "mound builder," evidently were the autochtones of this large province, and the Indians of the region east of the Blue Ridge, from the Savannah river to the St. Lawrence, as their crude and essentially different relics indicate, the Indians never worshipped idols nor maintained an organized government. At some remote period these autochtones savage nations conquered and exterminated the mound builders.

The Aztecs of Mexico and Peru were hybrids from amalgamation between the early Caucassian adventurers, who invaded eastern Asia in remote ages; and subsequently reached Mexico, and were finally swallowed up in the vortex of mongrelism. These Aztec hybrids were rapidly becoming extinct when Cortez and Pizarro, in their selfish and heartless greed for gold, soon completed their destruction; and now they are only leaving these wonderful evidences of their former existence. The three species of the human family, that occupied the American Continent, two of which yet survive, but are rapidly passing away, were evidently placed here cotemporaneously with negroes in Africa, the Mogol in Asia, and the Malays of the Pacific Isles countless ages before the advent of the Caucassian. This is Bible truth, and positively proved by the anatomy of the bodies of the different species and unmistakably confirmed by the striking and marked difference in the chemical constituents of the blood and bones, etc., of each species which from the same food gives sulphuretted hydrogen to make the peculiar odor of the negro, and the others in a different degree; and also the large percentage of nitrate of potassa, soda, etc., to make the black pigment that colors the rete mucosum, which does not enter into the circulation of the white race.

These facts are predicated upon the immutable laws of chemistry, which are the laws God. Any intelligent physician who has dissected the brain of the Negro, Indian, Chinese and White Race will tell you that the cerebrum, or intellectual lobe of the brain of the white is twenty cubic inches larger, on an average, than that of the negro; fifteen in the Indian; twelve in the Malay; and eight in that of the Chinese. Why did the Creator make this difference? These immutable laws of God clearly show why the developments of mind, in each species, differ. Common sense and observation dictate it. In all the animal kingdom, you find that the nervous system gives form to the animal, and the capacity of that system to transmit the electric vitalities, or spirit of God, to the forces or centre of the cerebral mass, characterizes the animal. It is the animal, and the immense difference in the extent of this nervous plexus, between man and animals contradistinguishes the one from the other. In man it is five times as large as in the ox or horse, in the monkey nine to one, and twenty-five to one in the zoophytic group. Again, between the Caucasian and negro, Mongol and other species, the size of the nervous system shows the reason why they have a quick limit to their mental capacity. The Mongols and mound builders, having a larger nervous plexus, can maintain a government, and invent some works of art; but the Chinese have long since reached a limit to invention. For two thousand years they have remained stationary. Millions of them in their crowded communities have perished for want of fuel, when the coal beds lay all around them; and until recently have they learned its use from the whites. But the Adamic race, from the larger size of their brain centre, develops reason in a higher degree, upon the simple principle of the fixed laws of God, that "like causes produce like effects," and hence we find this highest species of man to be progressive forever, and without any limit to mental development, because created after the image of God, as recorded in Genesis, chapter 1, verses 26 and 27.

In the 24th verse (in the original) God says: "Let the earth bring forth, in multitudes, the living creature, with intellectual and immortal souls, and cattle," etc. This, in our version, is rendered by "living creature" only as representing the Hebrew words "*Nephesh Chiyah*." The first is not translated at all, though it gives character and meaning to the sentence, and invests "*Chaiyah*" with immortality and distinguishes living creature from cattle and creeping thing.

Our version and the Catholic, or Douay Bible, are the only two translations and versions which deny the existence of pre-Adamites. It was suppressed because of the puritanic prejudice of early education, as all the English council believed in the absurd doctrine of the unity of the human race. This is confirmed by the 26th and 27th verses, where God says, "Now let us make man after our own image and likeness" (mentally.) Also the fact of the bones of man and the extinct mammoth rhinoceros, cave bear, etc., with stone axes and hammers, all mingled together in the gravel of the ancient river bed of the Rhine, far from its present channel, nearly 200 feet above its present bed, with 40 feet of superincumbent alluvial land, and that formation rests on the Tertiary; and that again on the Silurian and carboniferous, more than 20,000 feet thick, and full of fossil animals, like the Rome valley in East Tennessee, and the Great West; and yet again, before these vast formations were made, we find the metamorphic and pyrocrystalline strata rocks of at least 30,000 feet thick, which must have taken countless millions of years, all required by the good Bishop to have deposited in the deep sea in 5:0 years!

We will here, without qualification state, that all the discoveries in geology, in chemistry, anatomy and physiology, and the astounding developments in steam power and the electric telegraph, with the late incredible wonders of the spectroscope, all prove incontrovertibly the truth of the Bible, when it is correctly rendered. Even now the archæological society of Asia, under the supervision of Lord Rawlinson, are opening the basement of the temple of Baal or Nimrod in Babylon, which the Bible so often mentions, and have found bricks with the name of Nimrod, and other persons and incidents inscribed on them, in the Chaldee language, one thousand years before the Bible was written, or the Hebrew language had its existence. Yet this speaks its truth in thunder tones more than all the preachers on earth.

HOUSE.

Prayer by Rev. Mr. Strickland.

Hon. J. D. Woodall was sworn in as a member from Talbot.

A. Dukes, of Morgan county, was also sworn in.

The Journal of yesterday was read.

A message from the Senate was received announcing that the Senate was organized and ready for business.

Mr. Riley moved to reconsider so much of yesterday's proceedings as relate to granting leave of absence to Mr. Page, of Lee. Mr. Riley stated that he understood that the Sheriff was after Mr. Page, who is under an indictment for crime.

Mr. Jones, of Macon, moved to lay the motion to reconsider on the table. Lost.

Mr. Simmons, of Gwinnett, offered a resolution providing for the appointment of a committee to enquire into the cause of the absence of Mr. Page. The motion to reconsider prevailed. Mr. Simmons' resolution was then adopted.

Messrs. Simmons, of Gwinnett, Riley and McWhorter were appointed on said committee.

Mr. Hoge moved to suspend the special order in order to have a resolution read. This did live on earth cotemporaneous with those extinct animals; and we know that the alluvial formation reaches far back beyond the historic period, and the earliest tertiary must necessarily embrace countless ages, as the Rhine has only sunk at this point, by abrasion, about 18 inches since the days of Pliny; and the fossils are nearly 200 feet above the present river bed which would require more than 200,000 years. Then the inferior races lived in France, in Africa, in Asia, and the Indians and Mound Builders in America in hundreds of millions, in each Province, and the latter worshipped the goddess of Etowah, who doubtless swayed the sceptre of a mighty nation; and gave fashion and action to wondering millions. She now resides in the Gate City, whose Council should not permit so valuable a relic to be taken away to wealthier and more favored cities to edify their people.

But to return. We say that no geological developments, in the last age have been made, but what confirm the comparatively recent advent of the white race on earth; yet they all prove Bishop Ussher's chronology to be false, as regards the time of creation. He says: "5,871 years ago, the heavens and earth were created," but God says: "In the beginning."

Since Bishop Usher died, sculptured relics have been disentombed in Egypt, of the negro, with his flat nose, thick lips and kinky hair, the cat-eyed Chinese and the noble Caucassian, chiseled in the porphry and marble 1,800 years before Ham was born! Of course he could not be the progenerator of the negro, and these relics and ruined cities stand on alluvial land, and that formation rests on the Tertiary; and that again on the Silurian and carboniferous, more than 20,000 feet thick, and full of fossil animals, like the Rome valley to East Tennessee, and the Great West; and yet again, before these vast formations were made, we find the metamorphic and pyrocrystalline strata rocks of at least 30,000 feet thick, which must have taken countless millions of years, all required by the good Bishop to have deposited in the deep sea in 5:0 years!

Mr. Jackson offered the following resolutions:

Resolved, That Rufus B. Bullock, late Governor of the State of Georgia, who has resigned his office, and left the State under circunstances creating grave suspicions that he is guilty of high crimes and misdemeanors, has, in charging, in a letter bearing date 23d October, 1871, addressed to his political friends an the people of Georgia, that a majority of the House of Representatives had pledged themselves to vote for articles of impeachment against him, without investigation, and that the Senate had determined to unseat a sufficient number of Republican Senators to secure his conviction, without regard to the truth and validity of the charges, defamed this General Assembly by charges which are untrue.

Resolved, That the statement in the same letter to the effect that the people of Georgia have recently denounced or ignored the Constitution of the United States, is false and defamatory of the people of this State; on the contrary we assert that the people of this State do now as they did six months ago, (when, according to the letter of Rufus B. Bullock, they were peaceably disposed,) acquiesce in the result of the war, and neither entertain any hostility toward the United States, nor deny to any person within the State the equal protection of the laws. Grant as a Military Dictator--The whole South to be Placed Under Martial Law.

New York, November 1.—A special dispatch from Washington this evening states that it is asserted on the authority of Senator Poole, that President Grant has expressed his determination to declare martial law throughout the entire South, in consequence of continued outrages.

☞ John Quincy Adams comes out flat-footed against woman suffrage. In a letter to the committee appointed by the suffrage seekers of Massachusetts to obtain the views of the candidates on this subject, he says: "After careful thought and some study, I am firmly, and unequivocally opposed to woman suffrage, and shall feel it my duty, in the very improbable contingency of my ever occupying any considerable public office, to stand by the old immemorial division of activities and functions which seems to be at the foundation of society."

☞ The Washington Patriot says: "The President having taken possession of the State of South Carolina, deposed the local authorities, suspended the *habeas corpus*, abolished trial by jury, quartered his dragoons on defenseless citizens, filled the jails with American freemen by arrests without warrant, issues his proclamation for a general thanksgiving, and informs us that 'the process of the seasons has enabled the husbandman to garner the fruits of successful toil,' and that 'we are at peace with all nations, and tranquillity, with few exceptions, prevails at home.'"

A Little Incident of the Great Fugitive.

We have just learned of a characteristic little incident of the late Executive, Rufus, the Estray.

It was reported to him in the spring of 1870 that a State Road official had retained in his possession certain moneys on the monthly stock pay roll that the parties were not on hand to receive, and that in the next month's roll he drew money again for these same parties. Bullock did not remove this dishonest official, but permitted him to remain in the employ of the road until the official was indicted by the Grand Jury for some other offenses.

BULLOCK, THE FUGITIVE.

Martial Law Over the Whole South.

Special Correspondent of The Constitution.]

WASHINGTON, November 1, 1871.

Editors Constitution: * * * * * *

It is believed here that Bullock has fled to Canada.

Present indications are that the whole South will be put under martial law within thirty days. Private dispatches to this effect were sent to New York financiers to day.

P.

An Irreverent Fellow.

That jocose journal, the Petersburg Index, of Virginia, thus talks about our great fugitive: "The prince of carpet-baggers, Bullock, of Georgia, the thickest of hide, and the toughest of conscience, of all that noble army of adventurers and thieves."

This will do Bullock's noble soul great good in his wanderings.

The Index farther rejoices in this mournful sort of style, and with this cheerful grunt of regret:

"Let us be thankful that here in Virginia, though we have some occasions of regret and complaint, we have no such foul creatures in place, in our State Government, as this canting, and whining, and rapacious carpet-bag scoundrel, Bullock."

Georgia Threatened.

Intimations have been made to the President that certain portions of Georgia are suffering from the bold acts of bands of Ku-Klux. Members of the Outrage Committee are of opinion that evidence has been produced which would warrant decisive steps to be taken by the Administration in suppressing disorders in Georgia, and, therefore, efforts will be made to put down these disturbances. Although the President has not been fully advised concerning the exact situation of affairs in that State in this connection, it is firmly believed among Senators well posted in regard to the South that when the facts come to be laid before the Administration it is not at all improbable that the writ of habeas corpus will be suspended in Georgia.—*Washington Chronicle.*

The Goddess of Etowah.

The article headed as above, will attract general attention. It is by the leading geologist of Georgia, and refers to the stone image lately found in Bartow county. When it is thought that this little idol received the homage of millions of heathen worshippers long before the days of even the Indians, in this very State of ours, occupied by us in all the blazing light of this wonderful century of civilization, it becomes invested with peculiar interest.

Georgia is especially rich in its wealth of antiquities. We trust that this image may be kept here, and made the nucleus of a collection of our antiquarian curiosities and wonders. We should not permit the legends and traditions of the dim past to die out, or its historic vestiges to crumble to dust or be scattered to oblivion.

The Elections Next Tuesday.

State elections will be held next Tuesday, in Massachusetts, New York, New Jersey, Maryland, Virginia, Wisconsin, Minnesota, Illinois and Mississippi.

In Massachusetts the vote stood, in 1870 70,949; Democratic, 48,536; Labor-Temperance, 21,946. The Republicans secured 150 majority in the House and 28 in the Senate.

In New York last year, Hoffman, Democratic candidate for Governor, was elected by 32,096, over Woodford, Republican.

In the last Legislature, in New Jersey, the Republicans had three majority in the Senate and eight in the House.

The State went Republican last year, on a vote for Congressmen, by about four thousand majority.

In Virginia the Conservatives had 72 majority on joint ballot in the Legislature.

In Mississippi the Republicans had 76 majority on joint ballot in the last Legislature.

In Wisconsin at the last election for Governor (1869) the Republicans had 8,515 majority. In the last Legislature they had one majority in the Senate, and ten in the House.

Minnesota gave seven thousand Republican majority on a vote for Congressman last year.

In Illinois the vote for Congressman-at-large, last fall, was as follows: Republican, 168,862; Democratic, 144,109. In the Sixth District the Republicans polled 10,341 votes, and the Democrats 7,712.

The Legislature.

The General Assembly did important things yesterday. It recognized Conley as exercising the Executive powers of the Government; it inaugurated a movement to provide for the special election of a Governor in December; it vindicated the General Assembly and the people of Georgia from the infamous slanders of Bullock; it started retrenchment by bills to reduce the pay of members and clerks, and to lessen the cost of the public journals; and it put in progress the measure to investigate the State Road frauds, and the crimes of the Radical administration by a committee of able and resolute citizens outside of the Legislature.

The whole action of the Legislative body has been calculated to crush the Radical slanders against the State. The permission of Conley to exercise the Executive functions until a Governor can be elected, when in the honest opinion of many, President Trammell should do the gubernatorial duties, is a concession for peace, and a refutation of the charges of a revolutionary spirit on the part of the Democracy that cannot be overestimated.

This matter has a broad significance. Never was an unpleasant and, in the opinion of many, unauthorized concession made with a more patriotic spirit. It was good order yielding to believed temporary usurpation for the country's peace. It was the virtue of the State submitting to what it had the power to overthrow, rather than raise difficulty, embroil the quiet of the Commonwealth, and afford tyranny a pretext for up-turning the government.

One by one have the Radical prognostications of violent conduct on the part of the Democracy been falsified. Bullock's letter has been contradicted by every act that has been done. And the official refutation of his slanders, solemnly promulgated by a vote of 125 Democrats and moderate Republicans to 24 reckless partisan Radicals, who have thus indorsed falsehoods against the people, furnishes the criterion of the purposes of the citizens of the State.

One thing we are glad to see, and that is, that a spirit of liberal toleration marks the Legislature. It is a good, prudent, able body.

Major Campbell Wallace.

The following from the Montgomery Advertiser shows what the able and popular President of the Georgia Western Railroad has been doing. Now that he has by his great administrative power and energy completed one successful railroad enterprise, he will at once push the Georgia Western speedily forward. Atlanta should and will give him enthusiastic aid:

THE S. & N. ROAD.—The commissioners appointed by Governor Lindsay to examine, inspect and report upon, the condition of that part of the South and North Road lying between Calera and Birmingham, have performed that duty and reported, substantially, that the work has been done just as it should have been done, and that the road is completed in a style and manner that reflect the highest credit on those who have had it in charge. Yesterday evening the commissioners called in a body on Major Campbell Wallace, general manager for the contractors, and complimented him cordially for the pluck, zeal and fidelity he had displayed in making this road one of the best—if not the *very* best—in the Southern States.

The newly completed road having been, at last, accepted by the company, trains will be put upon it at once, and the two cities of Birmingham and Montgomery brought into immediate connection with each other by "bands of iron."

These commissioners—Messrs. E. Farrand, M. Teel, and Reuben Thorn—have discharged the important trust confided to them with ability, and strict justice to all parties, not only in this case but in all others in which to this time they have been officially concerned. Their appointment by Governor Lindsay was a guarantee to the people of Alabama that, from thenceforth railroad swindles, as against the State, were at an end.

BULLOCK INTERVIEWED.

He Says this Legislature is as Good as Ever Assembled.

Before the flight of our departed Rufus, Mr. Redfield, the excellent correspondent of the Cincinnati Commercial, interviewed him with the following result.

It will be observed that Rufus says that the present Legislature is as good a one as ever assembled. The effect of this admission is important. It nullifies his late rascally letter explaining his resignation. And it farther shows, that under the opinion that the Legislature is "able, reliable and trustworthy," nothing but conscious guilt could have driven him from an investigation at the hands of such a tribunal. Truly Bullock has done all that he could to put himself wrong:

The Governor was in cheerful spirits, considering the fact that a mighty effort will shortly be made to impeach him, rendering it necessary that he marshal his friends and go to work. He proceeded to interview me in the regular style of that modern art, wanting to know about the Commercial, about the Davidson Fountain, about Cincinnati generally, about the great Southern road that is destined to bring the Queen City within twenty-four hours of Atlanta. I responded cheerfully to all inquiries, so far as I was able, and not to have the interview one sided, I asked him about the new Legislature now shortly to assemble.

"*It will be just as good a Legislature as ever assembled in the State,*" he replied.

"Better than the one just out?"

"Oh, yes; this one, to tell the truth, will represent the people better. The other was a little of everything. While it is true that the new one will contain a majority of Democrats, it is also true that so far as I know they are good men, and have the best interests of the State at heart. There will be fewer negroes than in the old one. At this early day we cannot, of course, know so much about it as in a few months, but my opinion is that Georgia has an able, reliable and trustworthy Legislature. The people will have confidence in it, and that, you know, goes a good ways."

"Do you think an effort will be made to impeach you?"

"That is the talk now, but I care very little about it one way or the other. I have only a little over a year to serve any way, and if they want to try to impeach me they are welcome. I do not fear the result. I now, and ever have, courted investigation. At the last session they had a committee to 'investigate' me, a committee composed of Democrats, as I desired it should be, and they reported that they could find nothing to complain of. It's a very easy matter to make charges, you know."

Maj. J. A. Blance.

John McDonald (colored) who was run over by the cars near Bolton's station some two weeks ago, was taken to Atlanta, where he had his left leg amputated, and a portion of the bone removed from the right leg—two days after being operated upon in Atlanta, he was brought to this city and placed under the care of Dr. Cleland. Finding it impossible to save the injured leg, it was amputated by Dr. Cleland, on last Thursday week, assisted by Dr. Tennent, Jelks and Setze. He is doing well.

We are credibly informed that under the direction of a deputy United States Marshal, the soldiers that passed through Rome last Monday have arrested James Casey and Thomas his son, David Lowry and Jacob Thomas, of Polk county; also Duncan Monroe and his son-in-law, of Haralson county. They say they expect to make other arrests in that vicinity.

It is conjectured that true bills were found against these parties in the Federal Court at Atlanta. They are preparing to give bail.—*Rome Courier.*

We are gratified to learn that Colonel Gaines, who, for some months, has been assiduously engaged, at great expense, reopening the shaft in the rich gold vein on the Hart property, near Villa Rica, has at last accomplished this purpose, and has revealed a compact and uniform vein of great richness. This mine was worked a quarter of a century ago, and was abandoned because of an accident, in which one of the miners lost his life. The tunnel on the vein caved in and killed him instantly. Colonel Gaines has taken out the wheelbarrow on which Holcomb was killed.—*Newnan Dispatch Dispatcher.*

We learn that yesterday afternoon as the passenger train on the Georgia Railroad was running at its usual rate of speed this side of Thomson, some unknown person struck a young man named Maxwell, from Washington, Georgia, who was standing on the platform of one of the cars, on the head with a sling shot and then jumped off the train.

The supposition is that the miscreant thought the blow would cause his victim to fall from the car, and he would then have ample opportunity to plunder him of whatever valuables he might have on his person. The young gentleman, however escaped with a slight bruise on the forehead.—*Augusta Chronicle.*

HYMENEAL.

THOMSON—DANNER—Married, at the residence of Dr. B. R. Strong, in Marietta, Georgia, on Thursday, November 2, by Rev. W. F. Cook, W. S. Thomson, Esq., of Atlanta, and Miss Neva Danner, of Marietta. No cards.

SAWTELL—HULSEY—Married, at the residence of Mr. L. Williams, of DeKalb county, at 4 o'clock, P. M., on the 2d instant, by the Rev. Samuel Masters Mr. H. C. Sawtell and Miss Ella Hulsey.

The evening was passed pleasantly by the few friends and honored guests. Immediately after the able Minister had pronounced the happy couple one, the party was conducted to Mrs. Williams' dining room, where they found a table groaning under its burthen of everything that is nice. That large turkey alone was enough to convince one "that there's life in the old land yet." The happy couple left for East Tennessee on the 10 o'clock train. May flowers of happiness ever bloom in the garden of their destiny.

"They met; gazed in each others eye,
It needed but a glance.
To show that love was written there
Beyond all chance, or doubt.
Should sorrow or should shame betide,
It will be their joy.
If wicked world, seeking snares,
Their hearts will waver not.
Oh, blest are they the tie herein formed,
Death's fondest cord can sever.
They reunite through life's dark night,
And they are one forever."

RAIN.—Atlanta last night was visited with copious showers of rain.

FULTON SUPERIOR COURT.—The Grand Jury were discharged yesterday evening until Monday.

Go to the lecture to-night at DeGive's Opera House. Many members of the Legislature will doubtless be there.

HAY.—Messrs. T. J. Hightower & Co., are offering for sale a lot of prime timothy and clover hay, low to close consignment.

ACCIDENT.—A car axle broke yesterday on the State Road, causing five or six cars to run off the track. No one hurt, and damage slight.

VALUABLE PROPERTY.—J. W. Jones, administrator on the estate of Z. R. Jones, deceased, will sell at Decatur, next Tuesday, several valuable lots of land.

SUSPENDED.—The Daily True Georgian suspended publication yesterday evening, and the office was levied on for debts due the compositors and employees.

EDWARD HAIGHT & CO.—The attention of our readers is directed to the card of Edward Haight & Co., Bankers, New York. The business of this firm is the same as any State or National bank.

ENLARGING.—Mark W. Johnson has enlarged his stores in consequence of the rapid increase of business. For the past twelve months he has averaged the sale of ten California Saunters per month.

DELINQUENTS, LOOK OUT!—All parties who have been notified to work the streets in payment of their taxes for 1870 and neglect to do so, or pay their tax, will be arraigned before Mayor Hammond.

PASSING THROUGH.—It looks like antebellum times to see cotton passing through Atlanta for New York from Nashville. We learn that about five thousand bales passed through in the month of October, and about seven thousand this season.

ABSCONDED or stolen from the house of E. L. W., of Stone Mountain, Ga., on the evening of November 2d, two fine looking young men, J. N. H. and T. T. Any information concerning them will be thankfully received by the young ladies of the party.

RELIGIOUS.—Divine service in St. Stephen's Church, corner Forsyth and Walton streets on Sunday, November 5, at 10½ o'clock A. M., and 7½ o'clock P. M. Sunday Sch ol 3½ o'clock P. M Seats free. G. MACANLEY, Rector

J. S. NALL.—Our clever friend, J. S. Nall late of the True Georgian, we learn, has accepted a post in in Savannah at a handsome salary, and will shortly leave to assume it. We commend him to the kind attention and courtesies of our Savann h friends.

EUCHRE.—A great game of euchre will come off near Grantville, on or before the 15th of November between four world renowned euchre players of this State; the losing side to pay for the oysters and the opossum supper. Friend I. W. A. and old Uncle Bob Word had better look well to their laurels.

GOOD PLANTATION AT AUCTION.—Hiram Phillips proposes to sell his excellent plantation, near Cedartown, to the highest bidder, on Monday, November 20th.

The place contains seven hundred acres, and is one of the very best in the famous Cedar Valley. See advertisement.

MULE KILLED.—Thursday evening as one of the mules belonging to the city and apportioned to the Fourth Ward was going over Bell street bridge, the whistle of a passing steam engine so alarmed him that he backed off of the bridge and was instantly killed. Alderman Graham's son was driving the cart and barely escaped. The banisters of Bell street and Broad street bridge should be repaired at once before a much heavier loss is inflicted upon the city.

AMENDE HONORABLE.—The typos yesterday made sad havoc with the advertisement of Rip ley's auction sale. N. R. Fowler was put down "assignee," where he was "auctioneer." All who know T. R. Ripley will, at once, see that the typos were "out of joint," for in the twenty-one years in which Mr. Ripley has done business, he has never taken the bankrupt or homestead act. He owns a great deal of real estate in the city, and is a staunch and worthy man.

LECTURE TO-NIGHT.—The lecture of Captain Brain, advertised for last night, was postponed on account of the incessant rain. The lecture will be delivered this evening in DeGive's Hall according to announcement under the head of announcements. Let there be a large attendance. We have the strongest assurances, from those who have heard the lecture of this distinguished Confederate Sea Captain, that it is thrillingly interesting and of great merit. Captain Brain was held a prisoner for several years after the close of the war, and his devotion to the Southern pe ple has made him a cripple for life. We advise and urge our people to go out and hear something of the unwritten history of the late war, and of the horrors of Federal cruelty and imprisonment.

SAVANNAH FAIR.—The first annual exposition of the Industrial Association of Georgia will be held at Savannah, commencing on the 31st and continuing five days. It will embrace every department of industrial life, and will doubtless prove a great success. Thousands of people throughout the State will visit this Fair, for it affords an admirable opportunity to pass a few delightful days in the grand old historic city of Georgia, and confessedly one of the most beautiful cities in the world. THE CONSTITUTION will be represented at this Fair, and we urge the people everywhere to attend, for Savannah alone is worth the visit. The "Forest City" is the childhood's home of one of the proprietors and the former residence of one of the editors, and THE CONSTITUTION knows whereof it speaks. We call special attention to the advertisem nt of Colonel H. D. Capers, Secretary, in another column.

GEORGIA SUPREME COURT.

Cases to be Decided in the Supreme Court, in Order, July Term, 1871.

REPORTED EXCLUSIVELY FOR THE CONSTITUTION, BY

R. J. HAMMOND, SUPREME COURT REPORTER.

Eastern Circuit.....	18
Brunswick Circuit..	5

SUPREME COURT OF GEORGIA.—*November 3, 1871*.—Argument was heard in No. 3, Eastern Circuit. It is Andrew M. Ross vs. John W. Williamson. Petition for an order requiring delivery of books belonging to the office of County Treasurer, from Chatham county.

A. W. Stone by William Dougherty for plaintiff in error.

Hartridge & Chisolm contra.

No. 4 was argued. It is J. R. Jones vs. J. W. Lathrop & Co. Complaint from Chatham.

Lyon, deGraffenried & Irvin, Jackson, Lawton & Bleininger for plaintiff in error.

Harden & Levy and Judge Fleming contra.

No. 5 was taken up. It is Hanford & Hosman vs. E. B. Chipman. Complaint, from City Court of Savannah.

A. W. Stone by Wm. Dougherty for plaintiff in error.

Law, Lovell & Falligant, H. B. Tompkins contra.

Pending the reading the record in this case Court adjourned till 10 A. M., to-morrow.

GEORGIA PRESS CONVENTION.—At 12 M., [illegible] a number of the members of the Convention met at the hall of the Chamber of Commerce. There were not enough to constitute a quorum for the transaction of regular business, but the members interchanged their views fully and freely on important subjects.

Colonel C. W. Styles spoke of the manner in which advertising agencies were conducted, to the detriment of publishers, and advocated ignoring completely all of them.

Colonel F. S. Fitch sustained the views advanced by Colonel Styles, and advocated a concentrated effort by the press of the whole State to establish an agent of their own in New York.

Mr. Anderson, of the Covington Enterprise, was willing to allow each an agent 25 per cent. commission on all advertisements received by him, and thought it a good move if all would unite in it.

Colonel H. H. Jones related his experience with the proprietors of the "Sure Pop," and pronounced them swindlers. He would vestibule them at an early day.

J. J. Toon said he was sorry to see the indifference exhibited by the weekly press in regard to their own interests. Publishers were working for the benefit of their employees and the people. The subject of advertising and subscription rates and strictly adhering to them, and of wages, should receive earnest attention. Advertising agencies were especially reprehensible, because of the low rates and character of their advertisements. The subject of incompetent printers —apprentices who do not serve more than half their time and passed for journeymen—should receive attention.

Colonel Gilmore said that the press were not true to each other. Much evil might be remedied by having uniform prices and adhering to them. He believed an agency in New York would be practicable and profitable if the press would unite on it.

The Secretary was instructed to return thanks to Providence Brown, of the Western and Atlantic Railroad, for the tender of a special train to go to Iceville, and to J. Wallace Rhodes, Superintendent of the Atlanta Ice Manufacturing Company for an invitation to visit the Ice Works.

On motion, a vote of thanks was tendered to the Chamber of Commerce for the use of their Hall, and to M. E. Cooper, Esq., Secretary of that body for courtesies extended.

J. J. Toon, C. H. C. Willingham and W. G. Whidby were appointed a committee of arrangements for the next meeting.

The meeting adjourned to meet, should the Legislature take a recess, when that body reassembles, and in case it does not take a recess, at the call of the President.

CHEROKEE PILLS NO. 2.

For the Removal of Obstructions and the Insurance of Regularity in the Recurrence of Monthly Periods.

THESE PILLS are an unfailing Female Regulator, intended for special cases; those obstinate ones where milder and cheaper medicines fail.

They are composed of the most active and powerful principles of plants, roots and berries, so highly concentrated that each pill contains more medical strength than a whole box or bottle of ordinary dollar medicine in the market. Although powerful, yet so mild and pleasant in their operation, that the most feeble can take them with perfect safety.

They may be safely used at any age, and at any period, except during the First Three Months, during which the unfailing nature of their effects would infallibly prevent pregnancy.

All letters seeking information or advice will be promptly, freely and discreetly answered.

Each box contains about 100 pills, and wrapped in white paper printed in deep red letters, with full and explicit directions enclosed.

Sent by mail, free of postage, on receipt of price, $5, per box.

The Cherokee Pills No. 2 are sold by all enterprising Druggists in the civilized world. Some unprincipled dealers, however, try to sell worthless compounds in place of this; these, which they can purchase at a cheap price and make more money. As you value your health do not be deceived by such unprincipled Druggists, but for these $5 pills, and take no other. If the Druggist will not buy them for you, enclose the money in a letter and we will send them to you by mail, free of postage, securely sealed from observation.

Ladies or Gentlemen can address us in perfect confidence, stating fully and plainly their diseases and symptoms. Parties in need not hesitate because of their inability to visit us, as we have treated patients successfully in all portions of the civilized globe, by correspondence.

Patients addressing us will please state plainly all the symptoms, and write post office, county, State and name of writer, and enclose postage stamp for reply.

MARIAM MAY.

BY H. C. MERIVALE.

Mariam May was our hamlet's pride,
Worthy a queen to be,
For of all the maids in the country side
Was none so fair as she.

Her hair was like silk and her eyes like wine,
Liquid and dark and deep;
They sparkled and danced in the broad sunshine,
Or melted in rosy sleep.

Lovers by scores for her white hand sighed,
Of high and of low degree,
And many came riding from far and wide,
Her sweethearts fain to be.

The squire had plenty of golden store,
Such as for him was meet;
And he asked no better, and asked no more,
Than to lay it all at her feet.

But she put his gifts and vows aside,
Laughing, and out spake she:
"I ne'er was born for a rich man's bride,
So I cannot mate with thee."

The parson he came, with his face so grave,
Gentle and sleek and prim;
And said the best way her soul to save,
Was to take and marry him.

But she only opened her eyes full wide,
Wondering, and quoth she:
"Were there ne'er a man in the world beside,
You'd be far too good for me!"

The Colonel he swore a right sound oath—
"Little one, be my wife;
I've years and patience enough for both,
If you'll share a soldier's life."

He vowed that he would not be denied,
Low on his bended knee;
But she tossed her head with a pretty pride,
Said, "I never will wed with thee!"

Robin came back from sea one day,
Out of the distant West,
And the child with whom he used to play,
A woman he clasped to his breast.

She sobbed and kissed, and she laughed and cried—
"Welcome, my love," said she;
"For woe or for weal, and whate'er betide,
I will fare the world in ough with thee."

[CONDENSED FOR THE CONSTITUTION.]

THE GRAND FIASCO.—Yesterday at 12 o'clock M., the case of the United States vs Gen. Healy, U. S. Marshal; Jno. A. Minnis, U. S. District Attorney; Jno. L. C. Danner, Esq., Chief Clerk U. S. Collector's Office; Joshua Morse, late Attorney General of Alabama; and Stephen Coffin, Esq., candidate for Tax Collector in this county, was called up before United States Commissioner, Jno. W. Watts, to answer a charge preferred against them by Knox and Brainard, of violation of section 2 of the act commonly known as the Ku-Klux Act of 1871.

Brainard appeared for himself in the prosecution, and the Commissioner appointed John G. Fidley, Esq., to represent the United States. Colonel Murphey and General Holtzclaw represented General Healy and John A. Minnis. Messrs. Jones and Chilton, of the firm of Rice, Chilton & Jones, represented Messrs. Danner, Coffin and Morse.

On the case being called for trial the name of the witnesses for the United States were called, and about fifteen or twenty answered to their names. The prosecution then announced that they were not ready to go to trial on account of the absence of material witnesses, and requested that they be allowed until 3 o'clock to procure the attendance of these witnesses, and to make a sworn showing of what they would prove if present. The court then took a recess until 3 o'clock.

On reassembling at 3 o'clock, the prosecution not introducing any witnesses, and failing to make a sworn showing as to what the absent witnesses would prove, and failing to testify that these absent witnesses were material, and failing to give personal security for the fees of attending witnesses, the court dismissed the prosecution and adjourned. Thus ended another "tempest in a tea pot." [*Montgomery Advertiser.*

E. C. Camp, United States District Attorney for East Tennessee, has been removed and Judge George Andrews appointed in his stead.

The Directors of the Memphis and Charleston Railroad, at their recent meeting in Memphis, fixed the salary of the Vice President—the newly created office to which General John D. Rather was elected—at $3,000 per annum, and increasing the salary of the Chief Engineer, Mr. Merriwether, from $250 to $300 per month, and the salary of Mr. George Robinson, Secretary of the Western Division, from $2,500 to $3,000.

A FORGETFUL PREACHER.—A good story is told of a patriotic dominie up in Berkshire, Mass., who in the war-times of 1812 was prone to preach Democratic politics, and thank the Lord very specially, as well as very fervidly, for any favors shown to our arms. One Saturday night a neighbor received a packet of newspapers relating to one of our famous naval victories, and, being familiar with the parson's peculiarity, dispatched them to him. It was a great victory, and the good man rose to his prayer trembling with excitement—all the more that the subject matter would be news to most of his hearers. "We desire to thank Thee," he began, "for the great victory that our frigate, the—the—I've forgotten the name, but no matter—our frigate has gained over the enemy's ship of war, the—the—I've forgotten that name too—but Thou knowest, for it is in all the papers, and we have it in the house!"
